the Board of Health has certified that the sanitary condition is satisfactory. Under this law 18 applications for licenses were received; 15 of them were granted, 1 rejected and 2 are pending, to enable the applicants to make alterations necessary to have the buildings conform to the requirements of the law.

Chapter 398 of the Acts of 1897 authorizes the granting of "special licenses" to dealers in paints and dealers in chemicals to sell pure alcohol for mechanical, chemical or manufacturing purposes only. Nineteen applications were received from persons actually engaged in business as dealers in paints or chemicals, and all the applications were granted.

Bureau of Criminal Investigation.

The "Rogues' Gallery" now contains 11,851 photographs, 6,851 of which are photographs with Bertillon measurements, a system adopted for the use of this department during the past year. In accordance with an act passed by the Legislature, March 28, 1899 (chapter 203, sections 1, 2), we are allowed photographs, with Bertillon measurements, of all convicts now in the several prisons in this State, and of those who have been confined there and who were measured under that system and photographs taken, a number of which have already been added to our Bertillon cabinet. This, together with the adoption of the system by this department, is and will continue to be of great assistance in the identification of criminals. The records of 998 criminals have been added to the records kept in this Bureau, which now contains a total of 23,225. This Bureau has issued 420 prison reports of discharged convicts, containing the full records, descriptions, distinguishing marks, etc., of 154 convicts who were discharged during the year, and whose records were considered of sufficient importance to preserve. Other police departments were furnished with 204 copies of these reports. The number of cases reported to this office, which have been investigated, number 9,382, which are recorded on the assignment books kept for this purpose, and reports made on these cases are filed away for future reference. The letter books contain copies of letters written, numbering 12,674, 1,442 of which have been written during the past year. The telegram books contain 2,357 copies of telegrams and cables sent. A system of indexing has also been adopted by this Bureau, for the use of the department, which, when completed, will contain an index of records, histories, photographs, dates of arrests, etc., of about 50,000 people ; also a system of "histories and press clippings," now numbering 5,000 are kept in this Bureau, in envelope form, for police reference.

Permits to deliver Liquor.

To prevent "farming" or sub-letting their license privileges, the Board, on the first of December, 1899, notified holders of fourth and fifth class licenses that persons in their employ engaged in delivering liquor from teams must be provided with permits issued from this office, which must be shown to police officers on demand. POLICE SIGNAL SERVICE.

In compliance with chapter 454 of the Acts of 1894 and chapter 249 of the Acts of 1898, cable has been bought and ducts laid to remove some of the overhead construction on Division 5, the boxes now in use on that division not being adapted for underground purposes; twenty-five boxes and posts have been purchased.

Some of the original apparatus, after about twelve years constant use, has become worn out. Six new time stamps and fifteen new box movements have been purchased. Two wagon call transmitting motors and thirty polar box bells have been built by this department. A new signal desk will soon be placed in Division 12, and in a short time two will be needed at stations 11 and 13. Five new gongs should be purchased, so that all stations may be equipped with gongs, instead of bell service for alarm calls. There should also be built by this department fifteen "answer back" instruments of a new and improved form.

Since ammeters and other improvements have been introduced into the system, the total number of cells of battery has been reduced from 1,815 to 900.

By order of the Park Commissioners, 2,242 feet of underground cable was laid at Forest Hills, also 1,054 feet at Marine Park; and 2,500 feet of one and one-half inch iron pipe was put under Castle Island bridge, to protect cable running to the island.

On account of the New England Telephone and Telegraph Company abandoning the poles on West Newton Street, 1,100 feet of underground cable was laid on that street; and on account of the construction of the Elevated Railway, 8,745 feet of cable was bought to lay on Main Street in the Charlestown district, at an expense of \$1,311.75, of which \$550 was paid by the Boston Elevated Railway Company.

There are now in use 13 patrol wagons, 11 pungs and 26 horses in the patrol service, and 3 wagons and 4 horses in the repair department; 6 spare patrol wagons, 2 spare ambulances and 1 spare van are kept in reserve.

During the year the wagons made 21,690 runs, covering an aggregate distance of 18,597 miles. There were 21,084 pris-

oners conveyed to the station houses; 1,029 runs were made to take injured and insane persons to station houses, the hospitals or their homes; and 643 runs were made to take lost children to station houses. There were 578 runs to fires, and 109 runs for liquor seizures. There were 432 signal boxes in use, arranged on 60 circuits. There were 677,705 telephone messages and 2,462,748 "on-duty" calls sent over the lines. (See Table XXII.)

CONCLUSION.

During the past year there has been a decrease in both serious crimes and slighter offences, and the arrests less than in any of the past thirteen years. For this the Board of Police believe that credit is due to the vigilance, intelligence and energy of the officers of the police department.

Respectfully submitted,

ROBERT F. CLARK,

C. P. CURTIS, Jr.,

HARRY F. ADAMS,

Board of Police.
